GROWTH MANAGEMENT PLAN STEERING COMMITTEE

The Columbia County Board of Commissioners appointed the Growth Management Plan Steering Committee in the effort to amend the current 2000 Growth Management Plan to evaluate the changes within the county from 2000 and meet new state minimum planning standards adopted in 2004. The revised plan must be adopted by February 28, 2006. Public input will be sought during this process. As a guide, it is suggested to limit comments to 10 minutes and to avoid repetition of similar concerns.

Call to Order

Introduction of Committee

Committee Structure
